

LADY

CABLE BLOWING MACHINE

**LIGHTWEIGHT, PRECISE, RELIABLE.
VERSATILITY THAT MAKES THE DIFFERENCE.**

LADY is an extremely versatile cable blowing machine, **designed for distribution networks (the so-called "last mile")**, and allows the installation of **cables from 2 mm up to 8 mm**. It can be used **with an electric screwdriver** for short distances and medium-sized cables, **or with an electric motor** for installing small cables that require high sensitivity to prevent cable damage.

Thanks to its belt system, which ensures an even distribution of the pushing force, **LADY is a benchmark among cable blowing machines for distribution networks.**

WITH ELECTRIC SCREWDRIVER

MAX PUSHING FORCE 170 N

IDEAL FOR SHORT INSTALLATIONS AND
MEDIUM-SIZED CABLES
FROM 5 mm TO 10 mm.

WITH ELECTRIC MOTOR

MAX PUSHING FORCE 115 N

IDEAL FOR SMALL-SIZED CABLES
FROM 2 mm TO 4 mm.

MAIN FEATURES

SUITABLE FOR USE WITH **SMALL TO MEDIUM-SIZED COMPRESSORS**

ALL COMPRESSOR AIR **USED IN THE DUCT**

ELECTRONIC CONTROL OF MAXIMUM TORQUE AND CABLE SLIPPAGE

REVERSE GEAR

CABLES: FROM 2 TO 8 mm.

TUBES: FROM 5 TO 16 mm.
